KARL LAGERFELD SKETCHES HIS LIFE

No official biography has ever been published. The most eccentric figure in the world of fashion has always been discreet about his personal life.

This is a film in which Karl Lagerfeld draws his life:

his childhood home, his father, his mother, his school and Germany. He draws post-war Paris, where he arrived alone, to start a career in the very closed world of fashion. He draws all the fashion periods and trends he has experienced, and which he has marked with his creative genius.

With his photographic memory, and his sense of stroke and caricature, Karl Lagerfeld sketches, not just his life, but also his fierce determination to succeed.

KARL LAGERFELD SE DESSINE

On croit tout savoir de Karl Lagerfeld et pourtant il ne s'est jamais raconté. Aucune biographie officielle n'a jamais été publiée.

Voici le film dans lequel Karl Lagerfeld dessine sa vie :

la maison de son enfance, son père, sa mère, son école, l'Allemagne. Il dessine le Paris de l'après-guerre où il débarque seul, pour faire carrière dans le monde très fermé de la mode. De la mode, il dessine toutes les époques, les tendances qu'il a traversées et qu'il a marquées de son génie.

Avec sa mémoire photographique, son sens du trait et de la caricature, Karl Lagerfeld dessine non seulement sa vie mais aussi sa volonté farouche de réussir.
